NEWS OF SOUTH RICHMOND

REBUILD PAPER PLANT

Building Destroyed by Fire Will Be Replaced by Modern Plant.

Plans are being made by the Manchester Board and Paper Company to rebuild the plant, which was totally destroyed by fire several months ago. The site of the former building, along the canal near First and Hull Streets, is being cleared of the debris. Contracts for the new structure will be awarded in a few days. The plant will be modern and the machinery will be of the latest type.

The Todd Paper Company, near the burned building, is also being overhauled and modernized. A brick addition is being constructed and the factory otherwise enlarged.

This section of the Southside is being rapidly built up. On the opening of the new Mayo Bridge the space around the canal will be the most valuable for manufacturing purposes, because of the water power. Several concerns have taken advantage of this, and acquired title to the most desirable locations.

DISMISS SERIOUS CHARGE

County Officers Fail to Substantiate Capital Charge Against Boys.

Charges of a serious nature against Thomas Moore and Norman Grimes, young Southsiders, were dismissed by Magistrate L. W. Cheatham, before whom the boys were arraigned privately yesterday morning at his office, Fifteenth and Hull Streets. The young men were arrested Easter Monday at Forest Hill Park by county officers on

a charge of disorderly conduct. Later they were accused of attempting a capital crime on Mary Hornberger, nineteen years old. The case was worked up by Officers Flynn and Traynor.

At the hearing yesterday the officers failed absolutely to substantiate their claims. On the evidence of the girl, who in an affidavit, cleared the young men of any wrongdoing, they were dismissed. Fines of \$10 and costs were imposed on each for disorderly conduct.

Salt Is Continued.

Owing to illness of one of the defendants, Judge Ernest H. Wells yesterday continued the hearing of the motion for judgment instituted by V. Heckler against C. A. Harris and H. C. Richardson. The case will come up at the next term of court.

One of the squirrels which Park-keeper J. Lacy Redford was proudly exhibiting Wednesday, and which was to have been turned out in Washington Park yesterday, expired from natural causes during the night. Its mate took to the tall trees and disappeared from sight. More of them will be secured within a few days.

Anxious Father Dismissed.

Showing that he violated the speed limit in an effort to reach the bedside of his injured son, W. J. Dobbin, of Oak Grove, was dismissed yesterday morning by Justice H. A. Maurice, in Police Court, Part II. Mr. Dobbin was charged with reckless driving on Tull Street. According to the evidence, he had been notified that his son had fallen from a tree and was badly hurt. Without thinking about the speed, he whipped up his horse and made for home. The boy was not badly injured by the fall.

Will Get Vacuum Cleaner.

By authority of the Post-Office Department, Superintendent L. B. Lloyd of Manchester Station, has advertised for bids for the installation of a vacuum system. The cleaner has been needed ever since the building was erected. An application made during the last administration was filed after the appropriation had been exhausted. Among the other improvements for the building is additional electric wiring. This is necessary in order that better lighting facilities can be given the mailing division, where the carriers sort the incoming mail.

Realty Transfers Recorded.

Deeds of bargain and sale were placed on record yesterday in Hustings Court, Part II, as follows:

Building, Loan and Trust Company of Manchester, to Edward Shields, thirty-three feet on the south line of Tenth Street, between Everett and Maury, for \$602.50 and other valuable considerations.

L. E. Sutton, to T. M. Howey, four lots, with improvements, known as 35, 37, 39 and 41 Vaden Avenue, with a frontage of 227 feet on the east line of Vaden Avenue, between Bainbridge Street and the Atlantic Coast Line Rail-

road, for \$312.50 and other valuable considerations.

John Elchison, to John Harrison, 115 feet fronting on Buchanan Street, between Fochontas and Bainbridge, for \$1,150.

Disappearing Boy Again at Home.

After another peep into the mysteries of the outside world, Leonard Hanes, thirteen years old, has again returned to the paternal roof. The boy's latest escapade took him to New York, but three days in the metropolis was enough for the young Southsider. This is the second time in a month that young Hanes has disappeared from his home. His first trip ended at Hampton, where he was found by an uncle and brought home. Two weeks ago his grandfather qualified as his guardian and took the boy to live with him. He again ran away last Saturday.

Lung Affection Yielded To This Remedy

Any one interested in the treatment of consumption should get one of the booklets telling of recoveries by the use of Eckman's Alternative. Coughs, Stomach Colds and Pneumonia may be the beginning of more serious troubles—Eckman's Alternative is the effective remedy. Read Mr. Kanaly's statement:

"Gentlemen: For five or six years I was troubled with cough and expectoration. I also had a high fever. My case was declared consumption by my physician. I was given Cod Liver Oil, creosote and other medicines, all without benefit.

"At Christmas time, 1906, I was not expected to live. Calling Dr. R. H. McCarthy, he advised the use of Eckman's Alternative, which I took with excellent results, and was entirely cured. I have gained in weight, I go out in all weathers and have had no cough or cold whatever. I give these facts to encourage others to use Eckman's Alternative."

(Sworn Affidavit) JAS. W. KANALY, Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Trade Drug Co. and other leading druggists. Ask for booklet telling of recoveries, and write to Eckman Laboratories, Philadelphia, Pa., for additional evidence. Advertisement.

Need Assessment Reform.

According to Mr. Adams, the taxation system of the South at present shares the evil, common to every other State, of underassessment. Mr. Adams declares that 75 per cent. of the South's taxation problem would be solved by assessment reform.

Among the propositions to be advanced will be one contemplating the creation of a State Tax Commission, assisted by county assessors, all of whom shall be removed from politics. Other speakers will urge the organization in every Southern State of a State Tax Association, which shall meet in conference periodically to consider the problem of taxation and to bring about a more equitable adjustment of the tax burden. The membership of this proposed association is to consist of the tax-paying public and representatives of the various manufacturing districts. Such a body, it is pointed out, will localize and keep alive in each Southern State the movement for tax reform, which will be started at Richmond for the South as a whole.

Many Problems to Front.

Between fifty and sixty experts in taxation have collaborated with the executive secretary of the conference, Dr. Albert P. Bourland, in drawing up the program to be considered at the coming gathering. The leading items to be discussed are: The improvement of assessment methods; the problem of school taxes; essentials of equitable taxation; lines of reform now being

MILITARY MOVIES INTRODUCED HERE

Exploits of National Guard of Michigan Portrayed in Richmond Theatre.

A new use was made of moving pictures in Richmond yesterday, when the Military Movies, Inc., gave a free exhibition of the Colonial Theatre. Those present included local members of the militia, State officials, Mayor Ainslie, members of the Administrative Board and representatives of the press.

The subject of the pictures was the National Guard of Michigan, shown in manoeuvre camp. Major M. J. Phillips, of the Michigan militia, known as the "Major of Movies," was in charge, and delivered a lecture in connection with the display of films.

This exploit is regarded as the beginning of a campaign of education among the people in behalf of the militia service. It is intended that the public shall know some of the things the volunteer soldiery does, and become familiarized with its usefulness and efficiency. In some quarters it is fully expected that the War Department will take the matter up and arrange for a standard display of films in the moving picture houses of the country.

Major Phillips showed the infantry, cavalry, artillery, signal corps and engineer corps of Michigan at work in the field. Sham battles were portrayed, charges, target firing, camping, loading and unloading, harnessing, breaking camp, running wire communication, building bridges and all manner of facts practiced in the militia of every State, yet but little known to the public.

The entertainment yesterday afternoon, which began at 5:20 o'clock and lasted an hour, was arranged by Colonel Charles A. Dempsey, U. S. A., on duty with the Virginia Volunteers.
